

PACKAGE PRICE LIST from 1. Jan, 2023

Water laboratory

Total price for the customer:
including analyses, statement costs and VAT 24 %
package price also includes a discount of 20 %

Utility analysis for a dug well

263

Below listed analyses reported with a statement of well water quality, EUR

Coliform bacteria and <i>E.coli</i> (Colilert)
pH
Conductivity
Iron
Manganese
Total hardness
Fluoride
Chloride
Nitrite and nitrate
Ammonium nitrogen
Chemical oxygen consumption CODMn

Utility analysis for a drilled well

305

Below listed analyses reported with a statement of well water quality, EUR

Coliform bacteria and <i>E.coli</i> (Colilert)
pH
Conductivity
Iron
Manganese
Total hardness
Fluoride
Chloride
Nitrite and nitrate
Ammonium nitrogen
Chemical oxygen consumption CODMn
Radon

Extended utility analysis for a (new) drilled well

375

Below listed analyses reported with a statement of well water quality, EUR

Coliform bacteria and <i>E.coli</i> (Colilert)
pH
Conductivity
Iron
Manganese
Total hardness
Fluoride
Chloride
Nitrite and nitrate
Ammonium nitrogen
Chemical oxygen consumption CODMn
Radon
Arsenic
Uranium

Compendious well water analysis

197

Below listed analyses reported with a statement of well water quality, EUR

Coliform bacteria and <i>E.coli</i> (Colilert)
pH
Conductivity
Iron
Manganese
Nitrite and nitrate
Chemical oxygen consumption CODMn

Microbiological analysis

113

Below listed analyses reported with a statement of well water quality, EUR

Coliform bacteria and <i>E.coli</i> (Colilert)
Faecal enterococci

Corrosivity characteristics analysis

96

Below listed analyses reported with a statement of well water quality, EUR

pH
Chloride
Sulphate
Alkalinity
Ca hardness

Small business package

238

Below listed analyses reported with a statement of well water quality, EUR

Coliform bacteria and <i>E.coli</i> (Colilert)
Chemical oxygen consumption CODMn
pH
Iron
Manganese
Ammonium nitrogen
Nitrite and nitrate
Opacity
Colour
Odour
Taste

LUVYLab Oy Ab is a testing laboratory T147 accredited by the FINAS accreditation service, accreditation requirement SFS-EN ISO/IEC 17025: 2017. Activities included in the accredited area of competence can be seen on the website www.finas.fi.

If necessary, LUVYLab may forward the sample to a subcontracting laboratory of its choice, yet takes responsibility of the results.
